FAST, ACCURATE RFID READING IN A PASS-THROUGH DESIGN

- Economical option providing high read rates
- Reads up to 500 items in 10 seconds
- Pass-through design for ease of use
- Rugged design accommodates a wide variety of carts

JET STREAM PORTAL

The demand for an open, walk-through portal led to the introduction of Positek's RFID Jet Stream Portal. The patent pending design limits reading to inside the Portal and provides fast, highly accurate reading.

Elimination of doors allows for uninterrupted flow within the plant. Visual cues provide the operator an indication of how quickly the cart can be moved through the Jet Stream Portal and if it needs to stop based upon the number of tagged items in the cart. These visual cues provide for the ability to deliver highly accurate and consistent reading.

The portal can be used for both soiled and clean textiles as well as assignment of RFID to new textiles.

Exterior Dimensions

Total Dimensions: 66.7"W x 83.04"H x 97.39"D

Interior Dimensions

Total Dimensions: 49.25"W x 78.99"H x 94.86"D
