Lightning

RFID Portal

Accurate RFID reading in a convenient portal

The **Lightning Portal** is a high-speed, versatile RFID solution designed to streamline textile and linen tracking in demanding industrial environments. Developed for high-volume textile operations, the Lightning Portal provides fast, precise RFID scanning. With its advanced capabilities, the Lightning Portal helps laundry facilities achieve faster processing times, greater accuracy, and overall cost savings.

LIGHTNING-FAST RFID FOR HIGH-VOLUME SUCCESS

The Lightning Portal is equipped with high-speed RFID technology, allowing it to read hundreds of tags simultaneously, making it perfect for high-volume environments where efficiency is critical. Its compact and flexible design enables easy installation across various

locations, seamlessly integrating into existing workflows. Additionally, the precision of RFID ensures that every tagged item is accurately captured without duplication or missed reads, providing operators with reliable and confident inventory records.

Gain real-time visibility and reduce textile losses with the Lightning Portal, the RFID solution built to keep pace with demanding laundry operations.

RFID reading with the **Lightning RFID Portal** is started with the press of a button and can only begin when the door is closed. A red indicator light illuminates during reading. When reading is complete, the light turns green and the door can be opened. Positek RFID's software communicates with third party software packages as well as with the Positek RFID Software suite.

Exterior Dimensions

Doors Open 90°: 66.7"W x 83.11"H x 94.38"D

Interior Dimensions

49"W x 78"H x 59"D
